EDUCATION

MLR Institute of Technology

B.Tech in Computer Science Engineering (Data Science) | CGPA: 9.28/10

2023 – 2027

Dundigal, Hyderabad

EXPERIENCE

Infosys Springboard Virtual Internship — AI Intern | 🔄 PriceOptima

Feb 2026 – April 2026

AI-Driven Dynamic Pricing System

Remote

- Built an end-to-end dynamic pricing platform using **Python, FastAPI, React, XGBoost, and LightGBM** to optimize retail pricing through rule-based and ML-driven strategies.
- Developed a complete data pipeline (cleaning, feature engineering, pricing prediction) using business signals like demand, inventory, competitor pricing, and seasonality; deployed via **REST APIs and Docker** with an analytics dashboard.

ACHIEVEMENTS

Smart India Hackathon (SIH) 2025 — Grand Finalist: Led development of an AI-based logistics optimization solution and advanced to the national finale among **1,360 finalist teams** selected from **68,000+ teams across India**.

PROJECTS

StreetSolve — AI-Powered Civic Issue Reporting Platform | 🔄 🌐 Live

Jan 2026 – Apr 2026

- Built a full-stack civic grievance platform (**React + Node.js + MongoDB**) enabling issue reporting via **voice (major Indian languages & English)**, text, and images; integrated **Gemini 1.5 Flash** for multilingual transcription and **GPT-3.5 Turbo** for classification and department mapping.
- Implemented **GPS-based auto-routing** via MongoDB 2dsphere indexing and **Google Maps Geocoding API**; built a **4-stage resolution workflow** with real-time **Socket.IO** updates and automated **Twilio SMS** and email notifications.
- Added community-driven validation — issues auto-reopen if fewer than **70%** of nearby residents confirm resolution; developed an admin **analytics dashboard** with department-wise load, priority trends, and resolution metrics.

AI-Enabled Logistics Optimizer — Steel Supply Chain (SIH 2025) | 🔄 🌐 Live

Oct 2025 – Dec 2025

- Built a logistics optimization module for **5 steel plants** across eastern India, automating port-to-plant dispatch for coking coal and limestone via a **least-cost OR engine** handling **4 cost variables** and **6 operational constraints** (stock capacities, rake availability, discharge rules).
- Built a **Random Forest** delay prediction model integrated into vessel scheduling; added what-if analysis to simulate alternative dispatch scenarios and evaluate cost trade-offs.

PriceTracker — AI-Powered Price Comparison Platform | 🔄 🌐 Live

May 2025 – Jun 2025

- Built a full-stack price comparison engine (**Next.js + Node.js + MongoDB**) aggregating identical SKUs across **10 major Indian e-commerce platforms** via 3 concurrent pipelines; replaced sequential Puppeteer scraping with **BullMQ + Redis**, cutting job execution from **25s to ~7s (72% reduction)**.
- Implemented 30-day price history tracking, wishlist alerts, a **12-hour search cache**, and integrated **Google Gemini** as a contextual deal assistant for outfit, skincare, and cross-platform recommendations.

FallGuard — IoT-Based Elderly Fall Detection System | 🔄 🌐 Live

Sep 2023 – Nov 2023

- Built a fall detection prototype using **NodeMCU (ESP8266) + MPU6050**; multi-threshold algorithm on acceleration magnitude and orientation classifies falls with minimal false positives; WiFi-based alerts via **IFTTT Webhooks** notify caregivers instantly.

SKILLS

Languages: Java, Python, C, SQL, R

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Data Science & ML: Pandas, NumPy, Matplotlib, scikit-learn, Random Forest, XGBoost, LightGBM, EDA, Feature Engineering

Web Development: React.js, JavaScript, HTML/CSS, FastAPI, Node.js, Docker, BullMQ

Databases: MongoDB, MySQL, Redis

AI/ML & LLMs: LLM API Integration (Gemini, GPT-3.5), Prompt Engineering

Tools: Git, GitHub, Vercel, Render, Postman

CERTIFICATIONS

- Micro-Certification — Agentic AI Executive (ServiceNow)
- Data Science for Engineers — NPTEL (**Elite, 68%**)
- Python for Data Science — NPTEL (**Elite + Silver, 76%**)
- Data Science Essentials with Python — Cisco

CODING PROFILES

- LeetCode** — Nagamani_buddepu | 200+ problems solved | 🏆 50-Day Badge | 🏆 100-Day Badge | 🏆 Feb LeetCode Challenge
- CodeChef** — nagamani_6264 | 650+ problems solved | 🏆 Problem Solver — Gold | 🏆 Contest Contender — Bronze
